Instructions

This is a simplified scorecard for children. It can be used to teach children how to chart a player's path around the bases. It does not contain spaces to track batting or pitching statistics.

As players make their way around the base path, fill in the circles for the bases where they stop. If a runner hits a single, fill in the circle for first base. If the runner advances to third because the next batter hit a double, fill in the third base circle for the runner, and fill in the second base circle for the batter. When a runner makes it all the way home, fill in the diamond.
